Tech commentaries:

No changes to the price of **Neutra Corp** stock on the last trading day (Tuesday, 23rd Apr 2024). During the last trading day the stock fluctuated **0%** from a day low at **\$0.0003** to a day high of **\$0.0003**. The price has fallen in 5 of the last 10 days and is down by **-14.29%** for this period.

The stock lies in the middle of a very wide and weak rising trend in the short term and a further rise within the trend is signaled. Given the current short-term trend, the stock is expected to rise **4.43%** during the next 3 months and, with a 90% probability hold a price between **\$0.0002** and **\$0.0004** at the end of this 3-month period.

A buy signal was issued from a pivot bottom point on **Monday, April 22, 2024**, and so far it has fallen 0%. Further rise is indicated until a new top pivot has been found. Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). Volume gained on the last day while the price remained unchanged. This is not a classical divergence, but the stock should be watched more closely at it may be a "turning point". The very low volume increases the risk and reduces the other technical signals issued. Some negative signals were issued as well, and these may have some influence on the near short-term development. The **Neutra Corp** stock holds sell signals from both short and long-term Moving Averages giving a more negative forecast for the stock. On corrections up, there will be some resistance from the lines at **\$0.0003** and **\$0.0003**. A break-up above any of these levels will issue buy signals.

On the downside, the stock finds support just below today's level from accumulated volume at **\$0.0003** and **\$0.0003**. On the upside the stock meets some resistance from accumulated volume at **\$0.0003**, **\$0.0004**.

This stock may move very much during the day (volatility) and with a very large prediction interval from the Bollinger Band this stock is considered to be "very high risk". During the last day, the stock moved **\$0** between high and low, or **0%**. For the last week, the stock has had daily average volatility of **23.33%**.

Neutra Corp holds several negative signals and we believe that it will still perform weakly in the next couple of days or weeks. We, therefore, hold a negative evaluation of this stock.

Risk: Very High

Evaluation: Sell Candidate
