## Tech commentaries:

No changes to the price of **China Modern Dairy Holdings Ltd.** stock on the last trading day (Friday, 28th Jun 2024). During the last trading day the stock fluctuated **4.29%** from a day low at **HK\$0.700** to a day high of **HK\$0.730**. The price has been going up and down for this period, and there has been a **-1.41%** loss for the last 2 weeks.

The stock lies in the lower part of a wide and strong rising trend in the short term, and this may normally pose a very good buying opportunity. If the lower trend floor at **HK\$0.692** is broken, it will firstly indicate a slower rate of rising, but may also be an early warning for a trend shift. Given the current short-term trend, the stock is expected to rise **13.31%** during the next 3 months and, with a 90% probability hold a price between **HK\$0.785** and **HK\$0.96** at the end of this 3-month period.

There are mixed signals in the stock today. The **China Modern Dairy Holdings Ltd.** stock holds a buy signal from the short-term Moving Average; at the same time, however, the long-term average holds a general sell signal. Since the longterm average is above the short-term average there is a general sell signal in the stock giving a more negative forecast for the stock. On further gains, the stock will meet resistance from the long-term Moving Average at **HK\$0.729**. On a fall, the stock will find some support from the short-term average at **HK\$0.694**. A break-up through the long-term average will give another buy signal, while a fall below the short-term average will add another sell signal and strengthen the general signal. A sell signal was issued from a pivot top point on **Tuesday, May 28, 2024**, and so far it has fallen **-13.58%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). The volume rose on the last day while price remained unchanged. This may be an early warning and the stock should be watched closely.

**China Modern Dairy Holdings Ltd.** finds support from accumulated volume at **HK\$0.690** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at **HK\$0.710**, **HK\$0.740** and **HK\$0.790**.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved **HK\$0.0300** between high and low, or **4.29%**. For the last week, the stock has had daily average volatility of **3.22%**.

**China Modern Dairy Holdings Ltd.** holds several negative signals and we believe that it will still perform weakly in the next couple of days or weeks. We, therefore, hold a negative evaluation of this stock.

Risk: **Medium**

Evaluation: **Sell Candidate**
