Tech commentaries:

No changes to the price of **BUSINESS BREAKTHROUGH,INC.** stock on the last trading day (Wednesday, 3rd Jul 2024). During the last trading day the stock fluctuated **0.85%** from a day low at **JP¥355.00** to a day high of **JP¥358.00**. The price has risen in 4 of the last 10 days and is up by **1.14%** over the past 2 weeks.

The stock lies the upper part of a falling trend in the short term, and this may normally pose a very good selling opportunity for the short-term trader as reaction back towards the lower part of the trend can be expected. A break up at the top trend line at **JP¥358.00** will firstly indicate a slower falling rate, but may be the first sign of a trend shift. Given the current short-term trend, the stock is expected to fall **-10.21%** during the next 3 months and, with a 90% probability hold a price between **JP¥293.91** and **JP¥321.46** at the end of this 3-month period. Do note, that if the stock price manages to stay at current levels or higher, our prediction target will start to change positively over the next few days as the conditions for the current predictions will be broken.

The **BUSINESS BREAKTHROUGH,INC.** stock holds a sell signal from the short-term Moving Average; at the same time, however, there is a buy signal from the long-term average. Since the short-term average is above the long-term average there is a general buy signal in the stock giving a positive forecast for the stock. On further gains, the stock will meet resistance from the short-term Moving Average at approximately **JP¥356.71**. On a fall, the stock will find some support from the long-term average at approximately **JP¥350.11**. A break-up through the short-term average will send a buy signal, whereas a breakdown through the long-term average will send a sell signal. A buy signal was issued from a pivot bottom point on **Monday, June 03, 2024**, and so far it has risen 3.80%. Further rise is indicated until a new top pivot has been found. Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). Some negative signals were issued as well, and these may have some influence on the near short-term development. Volume fell during the last trading day while price remained unchanged. This may be an early warning, but it may also not. We still recommend that you pay attention over the next couple of days.

BUSINESS BREAKTHROUGH,INC. finds support from accumulated volume at **JP¥351.00** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at **JP¥357.00**, **JP¥359.00** and **JP¥381.00**.

In general the stock tends to have very controlled movements and with good liquidity the risk is considered very low in this stock. During the last day, the stock moved **JP¥3.00** between high and low, or **0.85%**. For the last week the stock has had daily average volatility of **1.01%**.

BUSINESS BREAKTHROUGH,INC. holds several positive signals, but we still don't find these to be enough for a buy candidate. At the current level, it should be considered as a hold candidate (hold or accumulate) in this position whilst awaiting further development. We have upgraded our analysis conclusion for this stock since the last evaluation from a Sell to a Hold/Accumulate candidate.

Risk: **Low**

Evaluation: **Hold/Accumulate**
