The stock lies in the middle of a wide and strong rising trend in the short term and a further rise within the trend is signaled. The **Cross Marketing Group Inc.** stock holds a sell signal from the short-term Moving Average; at the same time, however, there is a buy signal from the long-term average. This is considered to be a good technical signal. Some negative signals were issued as well, and these may have some influence on the near short-term development. A sell signal was issued from a pivot top point on **Tuesday, June 11, 2024**, and so far it has fallen **-3.56%**. Further fall is indicated until a new bottom pivot has been found.
