Tech commentaries:

The GungHo Online Entertainment,Inc. stock price gained 1.10% on the last trading day (Wednesday, 3rd Jul 2024), rising from JP¥2,806.00 to JP¥2,837.00. It has now gained 3 days in a row. It will be exciting to see whether it manages to continue gaining or take a minor break for the next few days. During the last trading day the stock fluctuated 1.89% from a day low at JP¥2,807.00 to a day high of JP¥2,860.00. The price has risen in 6 of the last 10 days and is up by 3.03% over the past 2 weeks. Volume fell on the last day by -100 thousand shares and in total, 261 thousand shares were bought and sold for approximately JP¥739.89 million. You should take into consideration that falling volume on higher prices causes divergence and may be an early warning about possible changes over the next couple of days.

The stock lies in the middle of a wide and strong rising trend in the short term and a further rise within the trend is signaled. Given the current short-term trend, the stock is expected to rise 26.48% during the next 3 months and, with a 90% probability hold a price between JP¥3,434.88 and JP¥3,859.05 at the end of this 3-month period.

The GungHo Online Entertainment, Inc. stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. On corrections down, there will be some support from the lines at JP¥2,765.79 and JP¥2,686.99. A breakdown below any of these levels will issue sell signals. A buy signal was issued from a pivot bottom point on Monday, June 24, 2024, and so far it has risen 5.35%. Further rise is indicated until a new top pivot has been found. Volume fell during the last trading day despite gaining prices. This causes a divergence between volume and price and it may be an early warning. The stock should be watched closely. Some negative signals were issued as well, and these may have some influence on the near short-term development. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD).

GungHo Online Entertainment, Inc. finds support from accumulated volume at JP¥2,825.50 and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. There is no resistance from accumulated volume above today's level and given the right condition the stock may perform very well during the next couple of days.

In general the stock tends to have very controlled movements and with good liquidity the risk is considered very low in this stock. During the last day, the stock moved JP¥53.00 between high and low, or 1.89%. For the last week the stock has had daily average volatility of 1.98%.

GungHo Online Entertainment,Inc. holds several positive signals and is within a strong rising trend. As the old saying says, "Let the trend be your friend."". We therefore consider it to be a good choice at these current levels and we are expecting further gains during the next 3 months.
