Tech commentaries:

The **The United Laboratories International** stock price gained **0.217%** on the last trading day (Tuesday, 30th Apr 2024), rising from **HK\$9.21** to **HK\$9.23**. During the last trading day the stock fluctuated **2.74%** from a day low at **HK\$9.12** to a day high of **HK\$9.37**. The price has been going up and down for this period, and there has been a **-4.45%** loss for the last 2 weeks. Volume fell on the last day by **-1 million** shares and in total, **3 million** shares were bought and sold for approximately **HK\$26.31** million. You should take into consideration that falling volume on higher prices causes divergence and may be an early warning about possible changes over the next couple of days.

Given the current short-term trend, the stock is expected to rise **36.70%** during the next 3 months and, with a 90% probability hold a price between **HK\$12.62** and **HK\$14.40** at the end of this 3-month period.

Volume fell during the last trading day despite gaining prices. This causes a divergence between volume and price and it may be an early warning. The stock should be watched closely. Some negative signals were issued as well, and these may have some influence on the near short-term development. The **The United Laboratories International** stock holds sell signals from both short and long-term Moving Averages giving a more negative forecast for the stock. On corrections up, there will be some resistance from the lines at **HK\$9.40** and **HK\$9.35**. A break-up above any of these levels will issue buy signals. A sell signal was issued from a pivot top point on **Thursday, April 11, 2024**, and so far it has fallen **-6.86%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD).

The United Laboratories International finds support from accumulated volume at **HK\$8.96** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at **HK\$9.28**, **HK\$9.57** and **HK\$9.71**.

This stock is usually traded at a good volume, and with minor daily changes, the risk is considered to be low. During the last day, the stock moved **HK\$0.250 (2.74%)** between high and low. For the last week, the stock has had daily average volatility of **4.02%**.

The **The United Laboratories International** stock holds several negative signals and despite the positive trend, we believe **The United Laboratories International** will perform weakly in the next couple of days or weeks. Therefore, we hold a negative evaluation of this stock.

Risk: **Low**

Evaluation: **Sell Candidate**
