Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). Volume is rising along with the price. This is considered to be a good technical signal.

Lion Corporation finds support from accumulated volume at **JP¥1,352.00** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. There is no resistance from accumulated volume above today's level and given the right condition the stock may perform very well during the next couple of days.
