Volume fell on the last day by **-18 million** shares and in total, **48 million** shares were bought and sold for approximately **\$760.51 million**. The stock lies in the middle of a wide and strong rising trend in the short term and a further rise within the trend is signaled. Given the current short-term trend, the stock is expected to rise **14.15%** during the next 3 months and, with a 90% probability hold a price between **\$15.92** and **\$19.22** at the end of this 3-month period.

The **Jiangsu Zhongtian Technology Co., Ltd.** stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. On corrections down, there will be some support from the lines at **\$15.34** and **\$14.79**. A breakdown below any of these levels will issue sell signals. A buy signal was issued from a pivot bottom point on **Monday, April 22, 2024**, and so far it has risen 26.18%. Further rise is indicated until a new top pivot has been found. Volume fell during the last trading day despite gaining prices. This causes a divergence between volume and price and it may be an early warning. The stock should be watched closely. Some negative signals were issued as well, and these may have some influence on the near short-term development. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD).

**Jiangsu Zhongtian Technology Co., Ltd.** finds support from accumulated volume at \$15.34 and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested.
