The price has been going up and down for this period, and there has been a 1.1% gain for the last 2 weeks. Volume has increased on the last day by **42 thousand** shares but on falling prices. This may be an early warning and the risk will be increased slightly over the next couple of days. In total, **352 thousand** shares were bought and sold for approximately **JP¥1.01 billion**.

The stock lies in the middle of a wide and falling trend in the short term and further fall within the trend is signaled. Given the current short-term trend, the stock is expected to fall **-10.86%** during the next 3 months and, with a 90% probability hold a price between **JP¥2,471.62** and **JP¥2,905.13** at the end of this 3-month period.

A buy signal was issued from a pivot bottom point on **Friday, April 19, 2024**, and so far it has risen 2.02%. Further rise is indicated until a new top pivot has been found. Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). Some negative signals were issued as well, and these may have some influence on the near short-term development. The **YOSHINOYA HOLDINGS CO.,LTD.** stock holds a buy signal from the short-term Moving Average; at the same time, however, the long-term average holds a general sell signal. Since the longterm average is above the short-term average there is a general sell signal in the stock giving a more negative forecast for the stock. On further gains, the stock will meet resistance from the long-term Moving Average at **JP¥3,108.50**. On a fall, the stock will find some support from the short-term average at **JP¥2,882.29**. A break-up through the long-term average will give another buy signal, while a fall below the short-term average will add another sell signal and strengthen the general signal. Volume rose on falling prices yesterday. This may be an early warning and the stock should be followed more closely.

YOSHINOYA HOLDINGS CO.,LTD. finds support from accumulated volume at **JP¥2,882.00** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at **JP¥2,932.50**, **JP¥3,174.00** and **JP¥3,175.00**.

YOSHINOYA HOLDINGS CO.,LTD. holds several positive signals, but we still don't find these to be enough for a buy candidate. At the current level, it should be considered as a hold candidate (hold or accumulate) in this position whilst awaiting further development. We have upgraded our analysis conclusion for this stock since the last evaluation from a Sell to a Hold/Accumulate candidate.
