Tech commentaries:

The **Adra Gayrimenkul Yatirim Ortakligi** stock price fell by **-5.86%** on the last day (Monday, 13th May 2024) from **TRY 28.00** to **TRY 26.36**. During the last trading day the stock fluctuated **6.53%** from a day low at **TRY 26.36** to a day high of **TRY 28.08**. The price has fallen in 7 of the last 10 days and is down by **-10.22%** for this period. Volume fell on the last day along with the stock, which is actually a good sign as volume should follow the stock. On the last day, the trading volume fell by **-623 thousand** shares and in total, **2 million** shares were bought and sold for approximately **TRY 39.66** million.

The stock lies in the middle of a very wide and falling trend in the short term and further fall within the trend is signaled. Given the current short-term trend, the stock is expected to fall **-27.72%** during the next 3 months and, with a 90% probability hold a price between **TRY 15.66** and **TRY 22.27** at the end of this 3-month period. Do note, that if the stock price manages to stay at current levels or higher, our prediction target will start to change positively over the next few days as the conditions for the current predictions will be broken.

There are few to no technical positive signals at the moment. The **Adra Gayrimenkul Yatirim Ortakligi** stock holds sell signals from both short and long-term Moving Averages giving a more negative forecast for the stock. Also, there is a general sell signal from the relation between the two signals where the long-term average is above the short-term average. On corrections up, there will be some resistance from the lines at **TRY 27.99** and **TRY 29.18**. A break-up above any of these levels will issue buy signals. A sell signal was issued from a pivot top point on **Friday, April 19, 2024**, and so far it has fallen **-14.42%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell together with the price during the last trading day and this reduces the overall risk as volume should follow the price movements.

There is no support from accumulated volume below today's level and given the right condition the stock may perform very badly in the next couple of days. On the upside the stock meets some resistance just above today's level from accumulated volume at **TRY 27.58**, **TRY 28.86** and **TRY 30.00**.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved **TRY 1.72** between high and low, or **6.53%**. For the last week, the stock has had daily average volatility of **4.04%**.

Adra Gayrimenkul Yatirim Ortakligi holds several negative signals and is within a very wide and falling trend, so we believe it will still perform weakly in the next couple of days or weeks. We therefore hold a negative evaluation of this stock.

Risk: **Medium**

Evaluation: **Sell Candidate**
