On corrections down, there will be some support from the lines at **2243.46** and **2235.17**. A breakdown below any of these levels will issue sell signals. Volume fell during the last trading day despite gaining prices. This causes a divergence between volume and price and it may be an early warning. The stock should be watched closely.

Anuh Pharma Limited finds support from accumulated volume at **253.20** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested.
