The **Angel Oak Mortgage, Inc.** stock price gained **0.81%** on the last trading day (Friday, 3rd May 2024), rising from **\$11.12** to **\$11.21**. It has now gained 3 days in a row. It will be exciting to see whether it manages to continue gaining or take a minor break for the next few days. During the last trading day the stock fluctuated **1.26%** from a day low at **\$11.15** to a day high of **\$11.29**. The price has been going up and down for this period, and there has been a -3.69% loss for the last 2 weeks. Volume fell on the last day by **-2 thousand** shares and in total, **22** thousand shares were bought and sold for approximately **\$241.13** thousand. You should take into consideration that falling volume on higher prices causes divergence and may be an early warning about possible changes over the next couple of days.

The **Angel Oak Mortgage, Inc.** stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock, but the stock has a general sell signal from the relation between the two signals where the long-term average is above the short-term average. On corrections down, there will be some support from the lines at **\$10.87** and **\$10.90**. A breakdown below any of these levels will issue sell signals. A buy signal was issued from a pivot bottom point on **Tuesday, April 23, 2024**, and so far it has risen 7.89%. Further rise is indicated until a new top pivot has been found. Some negative signals were issued as well, and these may have some influence on the near short-term development. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell during the last trading day while the price increased. This causes a divergence and may be considered as an early warning, but it may also not.

This stock has average movements during the day, but be aware of low or falling volume as this increases the risk. During the last day, the stock moved **\$0.140** between high and low, or **1.26%**. For the last week the stock has had daily average volatility of **3.37%**.

Risk: Medium
