The stock is at the upper part of a horizontal trend and normally this may pose a good selling opportunity but a break-up through the top trend line at **\$149.02** will give a strong buy signal and a trend shift could be expected. Given the current horizontal trend, you can expect **Booz Allen Hamilton Holding Corporation** stock with a 90% probability to be traded between **\$139.22** and **\$148.74** at the end of this 3-month period. A break of a horizontal trend is often followed by a large increase in the volume, and stocks seldom manage to go directly from the bottom of a trend up to the top. Stocks turning up in the middle of a horizontal trend are therefore considered to be potential runners.
