The **Basanite Inc** stock price gained **0.457%** on the last trading day (Thursday, 23rd May 2024), rising from **\$0.0110** to **\$0.0110**. During the last trading day the stock fluctuated **0%** from a day low at **\$0.0110** to a day high of **\$0.0110**. The price has fallen in 6 of the last 10 days and is down by **-6.46%** for this period. Volume fell on the last day by **-8 thousand** shares and in total, **110** thousand shares were bought and sold for approximately **\$1.21** thousand. You should take into consideration that falling volume on higher prices causes divergence and may be an early warning about possible changes over the next couple of days.

There are mixed signals in the stock today. The **Basanite Inc** stock holds a buy signal from the short-term Moving Average; at the same time, however, the long-term average holds a general sell signal. Since the longterm average is above the short-term average there is a general sell signal in the stock giving a more negative forecast for the stock. On further gains, the stock will meet resistance from the long-term Moving Average at **\$0.0113**. On a fall, the stock will find some support from the short-term average at **\$0.0107**. A break-up through the long-term average will give another buy signal, while a fall below the short-term average will add another sell signal and strengthen the general signal. A sell signal was issued from a pivot top point on **Tuesday, May 21, 2024**, and so far it has fallen -6.78%. Further fall is indicated until a new bottom pivot has been found. Volume fell during the last trading day while the price increased. This causes a divergence and may be considered as an early warning, but it may not be. The very low volume increases the risk and reduces the other technical signals issued. Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD).
