The price has risen in 6 of the last 10 days but is still down by **-1%** for this period. Volume fell on the last day along with the stock, which is actually a good sign as volume should follow the stock. Given the current short-term trend, the stock is expected to rise **24.33%** during the next 3 months and, with a 90% probability hold a price between **\$127.73** and **\$138.20** at the end of this 3-month period.

The **Bunge Limited** stock holds a sell signal from the short-term Moving Average; at the same time, however, there is a buy signal from the long-term average. Since the short-term average is above the long-term average there is a general buy signal in the stock giving a positive forecast for the stock. On a fall, the stock will find some support from the long-term average at approximately **\$102.13**. A break-up through the short-term average will send a buy signal, whereas a breakdown through the long-term average will send a sell signal. A sell signal was issued from a pivot top point on **Monday, April 22, 2024**, and so far it has fallen **-6.40%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell together with the price during the last trading day and this reduces the overall risk as volume should follow the price movements.

On the downside, the stock finds support just below today's level from accumulated volume at **\$90.66** and **\$88.54**. On the upside the stock meets some resistance just above today's level from accumulated volume at **\$105.79**, **\$109.52** and **\$109.62**.
