Tech commentaries:

The Bure Equity AB (publ) stock price fell by -1.66% on the last day (Thursday, 2nd May 2024) from kr348.40 to kr342.60. During the last trading day the stock fluctuated 2.59% from a day low at kr340.00 to a day high of kr348.80. The price has been going up and down for this period, and there has been a 5.22% gain for the last 2 weeks. Volume has increased on the last day by 5 thousand shares but on falling prices. This may be an early warning and the risk will be increased slightly over the next couple of days. In total, 34 thousand shares were bought and sold for approximately kr11.54 million.

The stock lies in the middle of a strong rising trend in the short term and a further rise within the trend is signaled. Given the current short-term trend, the stock is expected to rise 12.09% during the next 3 months and, with a 90% probability hold a price between kr361.93 and kr391.21 at the end of this 3-month period.

The Bure Equity AB (publ) stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. On corrections down, there will be some support from the lines at kr337.29 and kr332.15. A breakdown below any of these levels will issue sell signals. Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). Some negative signals were issued as well, and these may have some influence on the near short-term development. A sell signal was issued from a pivot top point on Tuesday, April 30, 2024, and so far it has fallen -1.66%. Further fall is indicated until a new bottom pivot has been found. Volume rose on falling prices yesterday. This may be an early warning and the stock should be followed more closely.

Bure Equity AB (publ) finds support from accumulated volume at kr338.40 and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at kr342.80, kr346.00 and kr348.40.

This stock is usually traded at a good volume, and with minor daily changes, the risk is considered to be low. During the last day, the stock moved kr8.80 (2.59%) between high and low. For the last week, the stock has had daily average volatility of 2.89%.

Several short-term signals, along with a general good trend, are positive and we conclude that the current level may hold a buying opportunity as there is a fair chance for Bure Equity AB (publ) stock to perform well in the short-term. Due to some small weaknesses in the technical picture we have downgraded our analysis conclusion for this stock since the last evaluation from a Strong Buy to a Buy candidate.
