Tech commentaries:

The **Brent Crude Oil Last Day Financ** commodity price gained **1.43%** on the last trading day (Friday, 28th Jun 2024), rising from **\$85.26** to **\$86.48**. During the last trading day the commodity fluctuated **0.220%** from a day low at **\$86.29** to a day high of **\$86.48**. The price has been going up and down for this period, and there has been a 2.65% gain for the last 2 weeks. Volume has increased on the last day along with the price, which is a positive technical sign, and, in total, **46** more shares were traded than the day before. In total, **48** shares were bought and sold for approximately **\$4.15** thousand.

Given the current short-term trend, the commodity is expected to fall **-7.98%** during the next 3 months and, with a 90% probability hold a price between **\$69.93** and **\$79.57** at the end of this 3-month period. Do note, that if the stock price manages to stay at current levels or higher, our prediction target will start to change positively over the next few days as the conditions for the current predictions will be broken.

Mostly positive signals in the chart today. The **Brent Crude Oil Last Day Financ** commodity holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. On corrections down, there will be some support from the lines at **\$85.45** and **\$82.91**. A breakdown below any of these levels will issue sell signals. A buy signal was issued from a pivot bottom point on **Monday, June 03, 2024**, and so far it has risen 10.69%. Further rise is indicated until a new top pivot has been found. Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). **Brent Crude Oil Last Day Financ** has increased volume and follows the last lift in the price. This is considered to be a technical positive sign as volume should follow the price-formation. The very low volume increases the risk and reduces the other technical signals issued.

Brent Crude Oil Last Day Financ finds support from accumulated volume at **\$85.81** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the commodity meets some resistance just above today's level from accumulated volume at **\$87.11**, **\$89.74** and **\$90.50**.

This commodity has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the commodity moved **\$0.190** between high and low, or **0.220%**. For the last week, the commodity has had daily average volatility of **0.160%**.

Several short-term signals are positive, despite the commodity being in a falling trend, we conclude that the current level may hold a buying opportunity as there is a fair chance for commodity to perform well in the short-term. We have upgraded our analysis conclusion for this commodity since the last evaluation from a Sell to a Buy candidate.

Risk: **Medium**

Evaluation: **Buy Candidate**
