## Tech commentaries:

The **Career Point Limited** stock price fell by **-0.0933%** on the last day (Friday, 31st May 2024) from **375.05** to **374.70**. It has now fallen 7 days in a row. During the last trading day the stock fluctuated **2.50%** from a day low at **370.50** to a day high of **379.75**. The price has fallen in 7 of the last 10 days and is down by **-8.49%** for this period. Volume fell on the last day along with the stock, which is actually a good sign as volume should follow the stock. On the last day, the trading volume fell by **-1 thousand** shares and in total, **18 thousand** shares were bought and sold for approximately **76.68** million.

Given the current short-term trend, the stock is expected to rise **73.91%** during the next 3 months and, with a 90% probability hold a price between **651.65** and **784.64** at the end of this 3-month period.

There are few to no technical positive signals at the moment. The **Career Point Limited** stock holds sell signals from both short and long-term Moving Averages giving a more negative forecast for the stock. On corrections up, there will be some resistance from the lines at **394.59** and **378.71**. A break-up above any of these levels will issue buy signals. A sell signal was issued from a pivot top point on **Wednesday, May 22, 2024**, and so far it has fallen **-12.62%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell together with the price during the last trading day and this reduces the overall risk as volume should follow the price movements.

**Career Point Limited** finds support from accumulated volume at **370.85** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance from accumulated volume at **400.95**, **401.50** and **424.35**.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved **9.25** between high and low, or **2.50%**. For the last week, the stock has had daily average volatility of **5.19%**.

The Career Point Limited stock holds several negative signals and despite the positive trend, we believe **Career Point Limited** will perform weakly in the next couple of days or weeks. Therefore, we hold a negative evaluation of this stock.

Risk: **Medium**

Evaluation: **Sell Candidate**
