

Sell candidate since Apr 01, 2024 Loss -9.55%

score: **-1.80**
#11725/ 30110

The **Capitol Federal Financial** stock price fell by **-1.33%** on the last day (Monday, 22nd Apr 2024) from **\$5.28** to **\$5.21**. During the last trading day the stock fluctuated **2.50%** from a day low at **\$5.21** to a day high of **\$5.34**. The price has been going up and down for this period, and there has been a **-5.27%** loss for the last 2 weeks. Volume fell on the last day along with the stock, which is actually a good sign as volume should follow the stock. On the last day, the trading volume fell by **-410 thousand** shares and in total, **669** thousand shares were bought and sold for approximately **\$3.48** million.

A buy signal was issued from a pivot bottom point on **Tuesday, April 16, 2024**, and so far it has risen 2.16%. Further rise is indicated until a new top pivot has been found. Some negative signals were issued as well, and these may have some influence on the near short-term development. The **Capitol Federal Financial** stock holds a buy signal from the short-term Moving Average; at the same time, however, the long-term average holds a general sell signal. Since the longterm average is above the short-term average there is a general sell signal in the stock giving a more negative forecast for the stock. On further gains, the stock will meet resistance from the long-term Moving Average at **\$5.58**. On a fall, the stock will find some support from the short-term average at **\$5.20**. A break-up through the long-term average will give another buy signal, while a fall below the short-term average will add another sell signal and strengthen the general signal. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell together with the price during the last trading day and this reduces the overall risk as volume should follow the price movements.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved **\$0.130** between high and low, or **2.50%**. For the last week, the stock has had daily average volatility of **3.26%**.

Risk: Medium
