The stock lies in the middle of a very wide and falling trend in the short term and further fall within the trend is signaled. This is considered to be a good technical signal. Some negative signals were issued as well, and these may have some influence on the near short-term development. A sell signal was issued from a pivot top point on **Wednesday, April 03, 2024**, and so far it has fallen -11.50%. Further fall is indicated until a new bottom pivot has been found.
