During the last trading day the stock fluctuated **0%** from a day low at **\$62.60** to a day high of **\$62.60**. The price has been going up and down for this period, and there has been a 0% change for the last 2 weeks.

The stock lies in the middle of a wide and strong rising trend in the short term and a further rise within the trend is signaled. Given the current short-term trend, the stock is expected to rise **10.47%** during the next 3 months and, with a 90% probability hold a price between **\$67.33** and **\$75.55** at the end of this 3-month period.

Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell on the last day without any changes to the price. This does not cause any direct divergence but may be an early warning and a possible "turning point". The very low volume increases the risk and reduces the other technical signals issued.

Eagle Bulk Shipping finds support from accumulated volume at **\$62.37** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at **\$62.98**, **\$63.05** and **\$64.42**.

For the last week the stock has had daily average volatility of **0%**

Eagle Bulk Shipping holds several negative signals and this should be a sell candidate, but due to the general chance for a turnaround situation it should be considered as a hold candidate (hold or accumulate) in this position whilst awaiting further development.

Risk: **Low**

Evaluation: **Hold/Accumulate**
