The stock lies in the middle of a very wide and falling trend in the short term and further fall within the trend is signaled. Do note, that if the stock price manages to stay at current levels or higher, our prediction target will start to change positively over the next few days as the conditions for the current predictions will be broken.

Volume fell on the last day without any changes to the price. This does not cause any direct divergence but may be an early warning and a possible "turning point". The very low volume increases the risk and reduces the other technical signals issued.

**Leviathan Cannabis Group Inc.** finds support from accumulated volume at **\$0.630** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. For the last week the stock has had daily average volatility of **0%**

**Leviathan Cannabis Group Inc.** holds several negative signals and this should be a sell candidate, but due to the general chance for a turnaround situation it should be considered as a hold candidate (hold or accumulate) in this position whilst awaiting further development.
