Tech commentaries:

The **Juniper Networks** stock price fell by **-1.32%** on the last day (Friday, 21st Jan 2022) from **\$33.31** to **\$32.87**. and has now fallen 8 days in a row. During the day the stock fluctuated **3.03%** from a day low at **\$32.55** to a day high of **\$33.54**. The price has fallen in 8 of the last 10 days and is down by **-4.56%** for this period. Volume has increased on the last day by **2 million** shares but on falling prices. This may be an early warning and the risk will be increased slightly over the next couple of days. In total, **6 million** shares were bought and sold for approximately **\$199.91 million**.

Given the current short-term trend, the stock is expected to rise **17.89%** during the next 3 months and, with a 90% probability hold a price between **\$38.75** and **\$43.89** at the end of this 3-month period.

There are few to no technical positive signals at the moment. The **Juniper Networks** stock holds sell signals from both short and long-term moving averages giving a more negative forecast for the stock. On corrections up, there will be some resistance from the lines at **\$34.03** and **\$33.94**. A break-up above any of these levels will issue buy signals. A sell signal was issued from a pivot top point on **Wednesday, December 29, 2021**, and so far it has fallen **-8.11%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume rose on falling prices yesterday. This may be an early warning and the stock should be followed more closely.

The **Juniper Networks** stock currently holds an RSI14 at **24** and is oversold on RSI14. The stock being oversold is no guarantee for instant reaction up as some stocks may be oversold for a long time. It is important to review the previous RSI-history to get an indication of the RSI-sensitiveness.

On the downside, the stock finds support just below today's level from accumulated volume at **\$31.22** and **\$31.13**. On the upside the stock meets some resistance just above today's level from accumulated volume at **\$33.64**, **\$34.05** and **\$35.36**.

This stock is usually traded at a good volume, and with minor daily changes, the risk is considered to be low. During the last day, the stock moved **\$0.98 (3.03%)** between high and low. For the last week, the stock has had a daily average volatility of **2.23%**.

The Juniper Networks stock holds several negative signals and despite the positive trend, we believe **Juniper Networks** will perform weakly in the next couple of days or weeks. Therefore, we hold a negative evaluation of this stock.
