Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). Volume is rising along with the price. This is considered to be a good technical signal. Some negative signals were issued as well, and these may have some influence on the near short-term development. The **L E Lundbergforetagen AB (publ)** stock holds a buy signal from the short-term Moving Average; at the same time, however, the long-term average holds a general sell signal.
