The fund lies in the middle of a narrow and weak rising trend in the short term and a further rise within the trend is signaled. The **Luxottica Group SpA** fund holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. A buy signal was issued from a pivot bottom point on **Thursday, June 15, 2017**, and so far it has risen 0.412%. Further rise is indicated until a new top pivot has been found. Some negative signals were issued as well, and these may have some influence on the near short-term development. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell during the last trading day while price remained unchanged. This may be an early warning, but it may also not. We still recommend that you pay attention over the next couple of days.

Luxottica Group SpA finds support from accumulated volume at \$60.65 and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the fund meets some resistance just above today's level from accumulated volume at **\$60.95** and **\$61.46**.
