The **Manitowoc Company Inc (The)** stock price fell by **-2.07%** on the last day (Wednesday, 1st May 2024) from **\$12.10** to **\$11.85**. During the last trading day the stock fluctuated **4.39%** from a day low at **\$11.73** to a day high of **\$12.25**. The price has fallen in 6 of the last 10 days and is down by **-8.21%** for this period. Volume fell on the last day along with the stock, which is actually a good sign as volume should follow the stock. On the last day, the trading volume fell by **-65 thousand** shares and in total, **199** thousand shares were bought and sold for approximately **\$2.36** million.

There are few to no technical positive signals at the moment. The **Manitowoc Company Inc (The)** stock holds sell signals from both short and long-term Moving Averages giving a more negative forecast for the stock. Also, there is a general sell signal from the relation between the two signals where the long-term average is above the short-term average. On corrections up, there will be some resistance from the lines at **\$12.61** and **\$13.27**. A break-up above any of these levels will issue buy signals. A sell signal was issued from a pivot top point on **Thursday, March 28, 2024**, and so far it has fallen -16.20%. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell together with the price during the last trading day and this reduces the overall risk as volume should follow the price movements.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved **\$0.515** between high and low, or **4.39%**. For the last week, the stock has had daily average volatility of **3.21%**.

Risk: Medium
