No changes to the price of **NexOptic Technology Corp.** stock on the last trading day (Wednesday, 8th May 2024). During the last trading day the stock fluctuated **0%** from a day low at **\$0.0182** to a day high of **\$0.0182**. The price has been going up and down for this period, and there has been a -1.62% loss for the last 2 weeks.

There are mixed signals in the stock today. The **NexOptic Technology Corp.** stock holds a buy signal from the short-term Moving Average; at the same time, however, the long-term average holds a general sell signal. Since the longterm average is above the short-term average there is a general sell signal in the stock giving a more negative forecast for the stock. On further gains, the stock will meet resistance from the long-term Moving Average at **\$0.0194**. On a fall, the stock will find some support from the short-term average at **\$0.0159**. A break-up through the long-term average will give another buy signal, while a fall below the short-term average will add another sell signal and strengthen the general signal. A sell signal was issued from a pivot top point on **Tuesday, May 07, 2024**, and so far it has fallen 0%. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell on the last day without any changes to the price. This does not cause any direct divergence but may be an early warning and a possible "turning point". The very low volume increases the risk and reduces the other technical signals issued.

In general the stock tends to have very controlled movements and therefore the general risk is considered very low. However, be aware of low or falling volume and make sure to keep an eye on the stock During the last day, the stock moved **\$0** between high and low, or **0%**. For the last week the stock has had daily average volatility of **8.75%**

Risk: Low
