Tech commentaries:

The **Grupo Aeroportuario del Centro Norte, S.** stock price gained **0.0528%** on the last trading day (Tuesday, 30th Apr 2024), rising from **\$189.56** to **\$189.66**. During the last trading day the stock fluctuated **0.705%** from a day low at **\$188.67** to a day high of **\$190.00**. The price has been going up and down for this period, and there has been a 15.2% gain for the last 2 weeks. Volume has increased on the last day along with the price, which is a positive technical sign, and, in total, **350 thousand** more shares were traded than the day before. In total, **792 thousand** shares were bought and sold for approximately **\$150.24** million.

The stock has broken the wide and strong rising the short-term trend up and an even stronger rate of rising is indicated. For any reaction back there will now be support on the roof on the current trend broken at **\$182.24**, a level that may pose a second chance to hit a runner. According to fan-theory **\$211.21** will be the next possible trend-top level and thereby pose a resistance level that may not be broken at the first attempt.

The **Grupo Aeroportuario del Centro Norte, S.** stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. On corrections down, there will be some support from the lines at **\$180.27** and **\$164.19**. A breakdown below any of these levels will issue sell signals. A buy signal was issued from a pivot bottom point on **Friday, April 19, 2024**, and so far it has risen 18.30%. Further rise is indicated until a new top pivot has been found. Volume is rising along with the price. This is considered to be a good technical signal. Some negative signals were issued as well, and these may have some influence on the near short-term development. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD).

On the downside, the stock finds support just below today's level from accumulated volume at **\$147.72** and **\$146.13**. There is no resistance from accumulated volume above today's level and given the right condition the stock may perform very well during the next couple of days.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved **\$1.33** between high and low, or **0.705%**. For the last week, the stock has had daily average volatility of **4.44%**.

Several short-term signals are positive and the stock has broke the rising trend up, which indicates an even stronger rate of rising. We conclude that the current level may hold a buying opportunity as there is a fair chance for **Grupo Aeroportuario del Centro Norte, S.** stock to perform well in the short-term period. We have upgraded our analysis conclusion for this stock since the last evaluation from a Buy to a Strong Buy candidate.

Risk: **Medium**

Evaluation: **Strong Buy Candidate**
