## Tech commentaries:

The **Piedmont Office Realty Trust Inc** stock price fell by **-0.149%** on the last day (Friday, 26th Apr 2024) from **\$6.72** to **\$6.71**. It has now fallen 3 days in a row. During the last trading day the stock fluctuated **1.94%** from a day low at **\$6.71** to a day high of **\$6.84**. The price has fallen in 6 of the last 10 days but is still up by **1.67%** over the past 2 weeks. Volume fell on the last day along with the stock, which is actually a good sign as volume should follow the stock. On the last day, the trading volume fell by **-331 thousand** shares and in total, **317 thousand** shares were bought and sold for approximately **\$2.13** million.

The stock is moving within a wide and horizontal trend and further movements within this trend can be expected. Given the current horizontal trend, you can expect **Piedmont Office Realty Trust Inc** stock with a 90% probability to be traded between **\$6.06** and **\$7.11** at the end of this 3-month period. A break of a horizontal trend is often followed by a large increase in the volume, and stocks seldom manage to go directly from the bottom of a trend up to the top. Stocks turning up in the middle of a horizontal trend are therefore considered to be potential runners.

The **Piedmont Office Realty Trust Inc** stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. On corrections down, there will be some support from the lines at **\$6.69** and **\$6.58**. A breakdown below any of these levels will issue sell signals. Some negative signals were issued as well, and these may have some influence on the near short-term development. A sell signal was issued from a pivot top point on **Thursday, March 28, 2024**, and so far it has fallen **-4.55%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell together with the price during the last trading day and this reduces the overall risk as volume should follow the price movements.

**Piedmont Office Realty Trust Inc** finds support from accumulated volume at **\$6.39** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at **\$6.80**, **\$6.87** and **\$6.89**.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved **\$0.130** between high and low, or **1.94%**. For the last week, the stock has had daily average volatility of **3.04%**.

**Piedmont Office Realty Trust Inc** holds several positive signals, but we still don't find these to be enough for a buy candidate. At the current level, it should be considered as a hold candidate (hold or accumulate) in this position whilst awaiting further development. We have upgraded our analysis conclusion for this stock since the last evaluation from a Sell to a Hold/Accumulate candidate.

Risk: **Medium**

Evaluation: **Hold/Accumulate**
