It will be exciting to see whether it manages to continue gaining or take a minor break for the next few days. During the last trading day the stock fluctuated 3.02% from a day low at \$255.20 to a day high of \$262.91. The price has been going up and down for this period, and there has been a 2.74% gain for the last 2 weeks. Volume has increased on the last day along with the price, which is a positive technical sign, and, in total, 575 thousand more shares were traded than the day before. In total, 1 million shares were bought and sold for approximately \$304.87 million.

The stock lies in the middle of a wide and strong rising trend in the short term and a further rise within the trend is signaled. Given the current short-term trend, the stock is expected to rise 28.29% during the next 3 months and, with a 90% probability hold a price between \$318.43 and \$356.70 at the end of this 3-month period.

The Quanta Services Inc stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock, but the stock has a general sell signal from the relation between the two signals where the long-term average is above the short-term average. On corrections down, there will be some support from the lines at \$250.93 and \$252.03. A breakdown below any of these levels will issue sell signals. Volume is rising along with the price. This is considered to be a good technical signal. Some negative signals were issued as well, and these may have some influence on the near short-term development. A sell signal was issued from a pivot top point on Friday, April 05, 2024, and so far it has fallen -0.585%. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD).

On the downside, the stock finds support just below today's level from accumulated volume at \$234.39 and \$232.93. On the upside the stock meets some resistance just above today's level from accumulated volume at \$262.26, \$262.29 and \$263.20.

This stock is usually traded at a good volume, and with minor daily changes, the risk is considered to be low. During the last day, the stock moved \$7.71 (3.02%) between high and low. For the last week, the stock has had daily average volatility of 2.82%.

Several short-term signals, along with a general good trend, are positive and we conclude that the current level may hold a buying opportunity as there is a fair chance for Quanta Services Inc stock to perform well in the short-term. We have upgraded our analysis conclusion for this stock since the last evaluation from a Hold/Accumulate to a Buy candidate.
