Tech commentaries:

The Quálitas Controladora, S.A.B. de C.V. stock price fell by -0.128% on the last day (Wednesday, 15th May 2024) from \$202.68 to \$202.42. During the last trading day the stock fluctuated 4.00% from a day low at \$201.57 to a day high of \$209.64. The price has fallen in 7 of the last 10 days and is down by -9.64% for this period. Volume has increased on the last day by 160 thousand shares but on falling prices. This may be an early warning and the risk will be increased slightly over the next couple of days. In total, 674 thousand shares were bought and sold for approximately \$136.42 million.

The stock has broken the wide and weak rising short-term trend down. This signalizes a slower rate of rising, but may also be an early warning about a possible trend shift. Due to the trend being broken there will now be resistance at the bottom line of the trend at \$203.96. A reaction back to this level may hold a second chance to get out before further falls.

The Quálitas Controladora, S.A.B. de C.V. stock holds a sell signal from the short-term Moving Average; at the same time, however, there is a buy signal from the long-term average. Since the short-term average is above the long-term average there is a general buy signal in the stock giving a positive forecast for the stock. On further gains, the stock will meet resistance from the short-term Moving Average at approximately \$204.36. On a fall, the stock will find some support from the long-term average at approximately \$202.21. A break-up through the short-term average will send a buy signal, whereas a breakdown through the long-term average will send a sell signal. A buy signal was issued from a pivot bottom point on Tuesday, May 07, 2024, and so far it has risen 0.0890%. Further rise is indicated until a new top pivot has been found. Some negative signals were issued as well, and these may have some influence on the near short-term development. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume rose on falling prices yesterday. This may be an early warning and the stock should be followed more closely.

Quálitas Controladora, S.A.B. de C.V. finds support from accumulated volume at \$199.40 and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at \$206.92, \$211.87 and \$224.02.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved \$8.07 between high and low, or 4.00%. For the last week, the stock has had daily average volatility of 2.86%.

Several short-term signals, along with a general good trend, are positive and we conclude that the current level may hold a buying opportunity as there is a fair chance for Quálitas Controladora, S.A.B. de C.V. stock to perform well in the short-term.
