Tech commentaries:

The **Triple Point Social Housing REIT PLC** stock price fell by **-0.328%** on the last day (Friday, 3rd May 2024) from **£61.00** to **£60.80**. During the last trading day the stock fluctuated **2.00%** from a day low at **£60.00** to a day high of **£61.20**. The price has risen in 5 of the last 10 days but is still down by **-0.16%** for this period. Volume has increased on the last day by **963 thousand** shares but on falling prices. This may be an early warning and the risk will be increased slightly over the next couple of days. In total, **1 million** shares were bought and sold for approximately **£75.73** million.

The stock lies in the middle of a wide and weak rising trend in the short term and a further rise within the trend is signaled. Given the current short-term trend, the stock is expected to rise **8.01%** during the next 3 months and, with a 90% probability hold a price between **£63.69** and **£70.65** at the end of this 3-month period.

The **Triple Point Social Housing REIT PLC** stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. On corrections down, there will be some support from the lines at **£60.70** and **£60.23**. A breakdown below any of these levels will issue sell signals. Furthermore, there is a buy signal from the 3 month Moving Average Convergence Divergence (MACD). Some negative signals were issued as well, and these may have some influence on the near short-term development. A sell signal was issued from a pivot top point on **Tuesday, April 23, 2024**, and so far it has fallen - **1.62%**. Further fall is indicated until a new bottom pivot has been found. Volume rose on falling prices yesterday. This may be an early warning and the stock should be followed more closely.

Triple Point Social Housing REIT PLC finds support from accumulated volume at **£59.00** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at **£61.00**, **£61.30** and **£61.50**.

In general the stock tends to have very controlled movements and with good liquidity the risk is considered very low in this stock. During the last day, the stock moved **£1.20** between high and low, or **2.00%**. For the last week the stock has had daily average volatility of **3.74%**.

Several short-term signals, along with a general good trend, are positive and we conclude that the current level may hold a buying opportunity as there is a fair chance for **Triple Point Social Housing REIT PLC** stock to perform well in the short-term.

Risk: **Low**

Evaluation: **Buy Candidate**
