The price has been going up and down for this period, and there has been a **0.27%** gain for the last 2 weeks. Volume fell on the last day along with the stock, which is actually a good sign as volume should follow the stock. There are few to no technical positive signals at the moment. The **Servizi Italia S.p.A.** stock holds sell signals from both short and long-term Moving Averages giving a more negative forecast for the stock. Also, there is a general sell signal from the relation between the two signals where the long-term average is above the short-term average. On corrections up, there will be some resistance from the lines at **1.85€** and **1.87€**. A break-up above any of these levels will issue buy signals. A sell signal was issued from a pivot top point on **Wednesday, May 22, 2024**, and so far it has fallen **-5.67%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD). Volume fell along with the price during the last trading day which is technical positive. One should, however, note that this stock may have low liquidity in periods, which increases the general risk. The very low volume increases the risk and reduces the other technical signals issued.

Servizi Italia S.p.A. finds support from accumulated volume at **1.78€** and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. On the upside the stock meets some resistance just above today's level from accumulated volume at **1.89€**, **1.90€** and **1.94€**.

In general the stock tends to have very controlled movements and therefore the general risk is considered very low. However, be aware of low or falling volume and make sure to keep an eye on the stock. During the last day, the stock moved **0€** between high and low, or **0%**. For the last week the stock has had daily average volatility of **1.26%**.

The **Servizi Italia S.p.A.** stock holds several negative signals and despite the positive trend, we believe **Servizi Italia S.p.A.** will perform weakly in the next couple of days or weeks. Therefore, we hold a negative evaluation of this stock.
