The **Staffing 360 Solutions Inc** stock price gained **4.74%** on the last trading day (Friday, 26th Apr 2024), rising from **£28.50** to **£29.85**. During the last trading day the stock fluctuated **1.11%** from a day low at **£29.75** to a day high of **£30.08**. The price has risen in 6 of the last 10 days and is up by **2.05%** over the past 2 weeks. Volume has increased on the last day along with the price, which is a positive technical sign, and, in total, **37 thousand** more shares were traded than the day before. In total, **230 thousand** shares were bought and sold for approximately **£6.86** million.

The stock lies in the middle of a very wide and weak rising trend in the short term and a further rise within the trend is signaled. Given the current short-term trend, the stock is expected to rise **3.68%** during the next 3 months and, with a 90% probability hold a price between **£26.50** and **£36.23** at the end of this 3-month period.

The **Staffing 360 Solutions Inc** stock holds buy signals from both short and long-term Moving Averages giving a positive forecast for the stock. Also, there is a general buy signal from the relation between the two signals where the short-term average is above the long-term average. On corrections down, there will be some support from the lines at **£29.72** and **£27.87**. A breakdown below any of these levels will issue sell signals. Volume is rising along with the price. This is considered to be a good technical signal. Some negative signals were issued as well, and these may have some influence on the near short-term development. A sell signal was issued from a pivot top point on **Thursday, April 11, 2024**, and so far it has fallen **-4.33%**. Further fall is indicated until a new bottom pivot has been found. Furthermore, there is currently a sell signal from the 3 month Moving Average Convergence Divergence (MACD).

On the downside, the stock finds support just below today's level from accumulated volume at **£27.50** and **£26.75**. On the upside the stock meets some resistance just above today's level from accumulated volume at **£31.10**, **£31.45** and **£31.50**.

This stock has average movements during the day and with good trading volume, the risk is considered to be medium. During the last day, the stock moved **£0.330** between high and low, or **1.11%**. For the last week, the stock has had daily average volatility of **3.83%**.

Several short-term signals, along with a general good trend, are positive and we conclude that the current level may hold a buying opportunity as there is a fair chance for **Staffing 360 Solutions Inc** stock to perform well in the short-term. We have upgraded our analysis conclusion for this stock since the last evaluation from a Hold/Accumulate to a Buy candidate.
