Tech commentaries:

No changes to the price of **TRC Companies Inc** fund on the last trading day (Wednesday, 9th Aug 2017). During the last trading day the fund fluctuated **0.571%** from a day low at **\$17.50** to a day high of **\$17.60**. The price has been going up and down for this period, and there has been a 0% change for the last 2 weeks.

The fund is moving within a narrow and horizontal trend and further movements within this trend can be expected. Given the current horizontal trend, you can expect **TRC Companies Inc** fund with a 90% probability to be traded between \$17.57 and \$17.68 at the end of this 3-month period. A break of a horizontal trend is often followed by a large increase in the volume, and funds seldom manage to go directly from the bottom of a trend up to the top. Funds turning up in the middle of a horizontal trend are therefore considered to be potential runners.

There are mixed signals in the fund today. A sell signal was issued from a pivot top point on **Tuesday, August 08, 2017**, and so far it has fallen 0%. Further fall is indicated until a new bottom pivot has been found. Volume fell on the last day without any changes to the price. This does not cause any direct divergence but may be an early warning and a possible "turning point".

TRC Companies Inc finds support from accumulated volume at \$17.50 and this level may hold a buying opportunity as an upwards reaction can be expected when the support is being tested. There is no resistance from accumulated volume above today's level and given the right condition the fund may perform very well during the next couple of days.

In general the fund tends to have very controlled movements and therefore the general risk is considered very low. However, be aware of low or falling volume and make sure to keep an eye on the fund During the last day, the fund moved **\$0.100** between high and low, or **0.571%**. For the last week the fund has had daily average volatility of **0.343%**

TRC Companies Inc holds several negative signals and we believe that it will still perform weakly in the next couple of days or weeks. We, therefore, hold a negative evaluation of this fund.
